

MB Power bags 'Gold Award' in 14th Exceed Green Future Award held in Lucknow

Jaithari, 28 August, 2023. MB Power (Madhya Pradesh) Limited, flagship venture of leading power producer, Hindustan Power, has bagged the "Gold Award" in the 14th Exceed Green Future Award-2023 ceremony which was held in Lucknow, Uttar Pradesh. The Assembly speaker, Shri Satish Mahana, presented this award for 'improvement in environment' in the Thermal Power Category. The award is given by the Sustainable Development Foundation.

The Taj Mahal Hotel, Lucknow, was the venue for this award ceremony.

It attracted participation from companies like Tata Power, Adani Power, Essar, Vedanta, JSW, BHEL, etc. Various government agencies also participated in the event.

Under the award selection process, Dr. Bholu Prasad Kushwaha, Head, Environment, MB Power, made an extensive presentation on the subject matter. Says Dr. Kushwaha, " This notable achievement will motivate us to do more for protection of the environment. We have received accolades for our dedication towards managing the environmental aspects." Mr. Ramswarup Kushwaha from EHS department received this award. Awards have been given in platinum, gold and silver categories.

MB Power plant is equipped with a high standard ESP to tackle pollution, where as it has ensured 100% fly ash utilization. Company's initiative to backfill the abandoned mines of SECL has paved the way for land reclamation for reuse. It has ensured to keep nitrogen dioxide and particulate emissions under standard norms. Plant is equipped with automatic road sweeping machines to handle air pollution where as a high-tech FGD is under construction to neutralize sulfur dioxide emission.

Sustainable Development Foundation works for upliftment of women, youths, children and environment sustainability. It is supported by Ministry of Environment, Forest and Climate Change.
